

EuroChem's New Terminal

By [The Moscow Times](#)

July 22, 2010

The  **Moscow Times**

EuroChem said Thursday that it will build a port terminal at Ust-Luga in the Leningrad region, on the Gulf of Finland, by 2014, with the capacity to load as much as 5 million metric tons of soil nutrients for export.

The company did not say how much the project will cost. Spokesman Vladimir Torin was not immediately available to comment. ☒
