August 02, 2010

The  **Moscow Times**

VTB is set to add at least 100 million Swiss francs (\$96 million) to a eurobond issued last month, with the pricing expected in the next two days, IFR reported Monday.

The placement follows VTB's issue of 400 million Singapore dollars (\$295 million) of 2012 eurobonds in July and comes as Russian banks rush to fill their coffers with foreign currency to meet a pickup in loan demand from domestic companies. ☒
