

EuroSibEnergo's Price Tag

By [The Moscow Times](#)

August 11, 2010

The  **Moscow Times**

Oleg Deripaska is valuing his electricity producer EuroSibEnergo at about \$8 billion, ahead of a planned Hong Kong initial public offering this fall, two sources said Wednesday.

The billionaire is currently marketing his power unit — formerly called En+ Power — to potential cornerstone investors in Moscow, the sources said.

They said Deripaska was hoping to list 25 percent of EuroSibEnergo shares.
