February 06, 2011

The  **Moscow Times**

Mobile TeleSystems canceled the Jan. 24 offer to buy back \$400 million of dollar bonds due January 2012, the company said in an e-mailed statement Friday.

The tender offer was terminated after the English High Court of Justice issued a freezing order on the company's subsidiary MTS Finance on Jan. 26. MTS may consider "further actions with respect to the notes."
