When a Mitsubishi SUV and Hyundai hatchback had a minor accident on the MKAD on Thursday, they turned on their flashers and paused to inspect the damage.

But that did little to deter a blue lorry hurtling toward them moments later. The lorry collided first with the Hyundai, then with the Mitsubishi, at the moment the Mitsubishi driver was getting out of his vehicle.

Luckily, it appeared that no one was injured in the MKAD collision, which was caught on the dashboard camera of a passing driver.
