The  **Moscow Times**

A YouTube video showing dashboard footage of a car that caused an accident while making a careless left turn in Romanovka, Leningradsky region has been making its rounds in the past few days.

In the video, the enraged driver of the oncoming vehicle got out of his car and proceeded to destroy the cellphone of the driver who caused the accident.

Russians are lauding his actions online, and many are calling for stricter laws with regards to using mobile phones while driving.
