

Russia's Central Bank Made No Forex Interventions on Dec. 23

By [The Moscow Times](#)

December 25, 2014

The  **Moscow Times**

Russia's Central Bank said on Thursday that it and the Finance Ministry had not conducted forex market interventions on Dec 23.

The Central Bank publishes its interventions data with a two-day time lag.

It has spent over \$80 billion defending the ruble this year, and the Finance Ministry last week started selling leftover foreign currency on its accounts to support the ruble.
