

Driver Encounters Endangered Tiger in Siberia

April 17, 2020

The  **Moscow Times**

This driver had a rare run-in with an Amur tiger, the largest and northernmost subspecies of tiger.

The Amur tiger is protected by Russia's Red Book, a state document listing the country's rare and endangered animals.

Amur tigers are solitary animals, but if you're lucky, maybe you'll get a peek.
